# INNOVATING IN PHARMACY FOR BETTER AFFORDABILITY AND IMPROVED OUTCOMES

Reducing high-cost medication spend using innovative contracting, leveraging real world evidence and ensuring that members are using the most appropriate, effective, and efficient medication.

Improving affordability and access to costly medical benefit drugs, by negotiating value-based arrangements with pharmaceutical manufacturers and addressing impacts of ultra high-cost cell and gene therapies.

# OFFERINGS THAT MANAGE COSTS WHILE ENSURING QUALITY CARE

## Limit liability with **SYNERGIE GENE+ RISK PROTECTION**

Reinsures the ingredient cost above stop-loss deductible to support treatment coverage and rate stabilization, resulting in improved affordability

## Protect investment with **SYNERGIE GENE+ OUTCOMES**

Value-based pharmaceutical manufacturer contracts ensuring investment return if therapies don't deliver expected outcomes

# BETTER PERFORMANCE THROUGH VALUE-BASED CONTRACTS

## INCENTIVES FOR PROVIDERS TO MANAGE COSTS AND OUTCOMES, FOR BOTH MEDICAL AND PHARMACY CARE

- Integration provides a 360-degree view of patient care for providers in value-based contracts.
- Providers can see the full spectrum of patient care.
- Plan and provider are aligned on prioritizing patient health, while managing costs across medical and pharmacy.
